Discipleship Questions

1. Ephesians opens with Paul reminding Christians that God chose them before the foundation of the world. That means before you were created or could do anything good or bad, God chose you to know Jesus. How does this influence your thoughts when you consider God's presence in your life?
2. Identity is one of the most debated topics in our culture today. A Christian's identity derives from being united with Christ. What does it mean for you to be a child of God? How does this identity shape other facets of your life?
