Discipleship Questions

1. Experiences, feelings, and how we were raised can shape our beliefs about God. How have these influencers affected what you believe to be true about God, this world, and yourself? Are there any Scriptures (or Christian doctrines) that are in opposition to the beliefs you hold? If so, how might God be challenging what you believe?
2. In your opinion, where does truth come from? Does how you live affirm your answer? Is your resource for truth and God's the same? If not, what might God be speaking to you today?
