Discipleship Questions

1. Visit your local bookstore, browse online, or ask a random person and you will quickly discover numerous views regarding what leads to a happy marriage. Unfortunately, not all these views deliver what they promise. Scripture reveals that the key to a blessed marriage is found in a husband and wife emulating the relationship Jesus has with the church. After reading Ephesians 5:22-33, how have you been challenged by Scripture to live as a Christian wife or husband?
2. At the beginning of a relationship, individuals can find themselves attracted to someone who seems quite their opposite. While "opposites attract" early on, these differences can be the reason for division later in the relationship. Take a moment and read Genesis 2:18-24. As we consider what it means for the two to become one, how might God use spouses' differences to bring wholeness in marriage? If you are married, how does this influence your marriage?
