Discipleship Questions

1. Jesus warns His disciples that some people will not receive the good news of the gospel. He states that these individuals will not only reject the gospel but mock it as well. Therefore, trying to evangelize them will be unproductive. How does Jesus' teaching influence how you share your faith and shape your understanding of effective evangelism (i.e., does it change how you view your abilities to share your faith with others)?
2. This question has two parts: First, what role is God calling you to play in spreading the gospel message of Jesus Christ? Second, what current opportunities has God given you to introduce others to Jesus? Given your answer to these two questions, how does God want you to embrace your call to engage these opportunities?
