Discipleship Questions

1. Have you ever gone through a situation that caused you to question God's presence or direction, but afterward, when looking back, you were able to see how God was working? As you reflect on that time, how does it affect present hardships or how you engage future ones?
2. Although Samson rebelled against God numerous times, he put his faith in God in the end, which earned him mention in Hebrews 11:32-40 as a person of faith. Upon hearing this, how does it shape your understanding of God's grace and redemption, along with your personal relationship with God?
